

Power your tech-enabled fund admin offering

As a fund administrator, you're no longer just a service provider. You're a strategic partner delivering technology-enabled solutions to fund managers. By partnering with qashqade, you gain access to a proven platform that enhances your offering with automation, precision, and scalability - while strengthening your value to clients.

Why partner with qashqade_

Strengthen your stack

Offer clients best-in-class tools for waterfall calculations, reporting, and data integration, without building it yourself.

Scale your offering

Automate complexity and reduce manual work, so you can grow your client base without expanding your operations team.

Deliver 100% accuracy

Impress clients and regulators with institutional-grade results, consistent outputs, and end-to-end traceability.

Enhance client experience

Gain access to your branded platform, providing investor-ready reports, transparent workflows and secure data sharing

Stand out from the rest

Set yourself apart from other admins by delivering a seamless, tech-enabled service that aligns with modern LP expectations.

Partner with experts

Gain support and expertise from a team of private market experts, and a platform engineered for fund admin realities.

Explore how we can power your admin offering - together_

Partnering with qashqade means more than just adding another technology to your stack. It means unlocking new efficiency, reducing operational strain, and delivering more value to your clients, all without having to build it yourself. With automation, guaranteed accuracy, and private markets expertise at your side, you can scale smarter and stand out in a competitive landscape.
